To attend our national compliance roadshows.

The aim is to discuss the new settlement agreement and amendments to the collective agreements. There will be various sessions held of approximately 2 hours each and depending on the interest shown, more than one session can be scheduled on a day to ensure that due consideration is given to Covid-19 safety protocols. There will also be a virtual session to cater for those who were unable to join us in person.

We look forward to seeing you!
